

# Hydraulic Ram Repair Centre

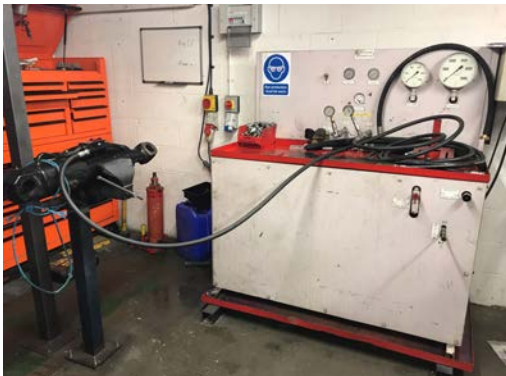

Due to demand, we have employed a dedicated Ram technician to repair and service your hydraulic cylinders.

- This means your downtime is reduced.
- Our focus on this area has enabled us to negotiate better pricing so your repair will be cheaper.

We offer a service to repair, reseal & manufacture hydraulic rams from our workshop. With welding and machining services, we are able to repair or manufacture your hydraulic rams quickly and efficiently; full testing facilities are also available to guarantee peace of mind with the repairs.

Specialist seals and cylinders spares available from stock.

Our new testing facility allows us to function test all Hydraulic Cylinders.

We can also test Hydraulic pumps and Motors.

Our specialist cylinder technician is able to measure up and design any size hydraulic cylinder. This includes same/ next day delivery on seals,

We can work from a damaged/ existing cylinder or from a scaled drawing.
